

PreSet Appointments

The Right Prospects at the Right Time

Do you struggle to find the time to follow-up with your leads?

With CareValue's PreSet Appointment Program, you can focus your time on selling instead of calling!

How does it work? Our PreSet Appointment Setters:

- Use your BRC, NR-BRC, T-65, or other lead list
- Use a CMS-compliant phone script for vetting your leads
- Work around your provided schedule to set appointments
- Use active listening to generate detailed notes about each prospect - turning cold calls into warm welcomes for you
- Complete data hygiene on your leads in AllRep by verifying the accuracy of the contact information
