Preferred Vendor Information

Direct Mail

We prefer agents use TargetLeads or Kramer Direct because of the connectivity with AllRep™ Lead Management. This integration means responses are delivered electronically by email and posted into AllRep™ Lead Management as new leads under your account.

TargetLeads

800-723-5254

Carevalue.TargetLeads.com

Kramer Direct

888-572-6373

KramerDirect.com/CareValue

Both vendors have a similar ordering process. Once you've selected which you'd like to do business with, place a call to their toll-free number listed above. When speaking to the representative, be sure you mention you are an agent with CareValue to receive our negotiated discounts. You will then work with them to determine the demographics you would like to target with your Medicare Supplement or Medicare Advantage mailing piece.

After the order specifics are gathered, the vendor reaches out to CareValue to confirm your funding eligibility and amount. They will then finalize the order (with your approval) and bill CareValue for our portion and you for your portion. See Level Specifics below for more information on billing.

AllRep™ Lead Management Tool

Reaching Level 5 of the program will gain you a free subscription to AllRep™'s Lead Management Medicare quoting tools.

The quoting tool from CSG lets a user accurately compare plans and prices across a variety of product lines and carriers. You can see rates for multiple states, and the plans include the A.M. Best ratings by carrier.

Prospect Mapping Tool

Reaching Level 5 of the program will gain you a reimbursement of one-month's subscription cost for a prospect mapping tool available from Infofree.com. This will be at the CareValue negotiated rate.

The prospect mapping tool from infofree.com lets a user search based on criteria (examples include: zip code, age, income) to create a prospect list. The user can transfer that list, and the app displays the prospects on a map on their phone.

It also allows users to upload a list of existing clients, manage contacts, and see them displayed on that map. CareValue has a specially negotiated rate with infofree.com that gets contracted agents an account which includes the prospect mapping tool.

Terms and Conditions (Effective April, 2017)

Qualifying Plans: Issued and paid Medicare Advantage and Medicare Supplement plans, except for high-deductible Plan F and guaranteed issue plans, which do not qualify for this program. Note that carrier systems do not always indicate apps that are high-deductible Plan F or guaranteed issue, so double-check your apps to be sure they all qualify. If we provide you with funds based on invalid or ineligible applications, we reserve the right to request reimbursement from you.

The FASTRACK program cannot be used in conjunction with any other CareValue marketing assistance program.

Eligible Expenses: Marketing expenses must be Medicare-related. Items not eligible for reimbursement include, but are not limited to: licensing fees, meals, clothing, telephone, office expenses, office supplies or personal items. Any custom mailing pieces purchased using funds from this marketing assistance program must be submitted for approval from the CareValue Compliance Department before use. You are responsible for completing the

attached form to document qualifying policies and request program participation. Return the request form by fax or email to the marketing program manager of CareValue at **855.888.8326** or FASTRACK@carevalue.com.

Infofree.com: If you qualify for the free prospect mapping tool from Infofree.com, available at Level 5, 10, 20 and 30, and you have an existing Infofree.com account, your account will need to be discontinued. CareValue has negotiated special rates with Infofree.com, which you would then be able to use. Contact your CareValue Marketing Consultant for rate details and for help converting your Infofree.com account.
